DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3, and 5-13 are allowed.
2. The following is an examiner's statement of reasons for allowance:
Following a diligent search it was determined that the prior art neither teaches nor suggests an isolated nucleic acid molecule comprising the nucleotide sequence of SEQ ID NO: 1 or SEQ ID NO: 3, an isolated nucleic acid molecule encoding the amino acid sequence of SEQ ID NO: 2 or SEQ ID NO: 4, a recombinant expression vector comprising said isolated nucleic acid molecule, and a host cell comprising said recombinant expression vector.
Applicants' amendments and arguments filed on 05/18/2005 have been fully considered and are deemed to be persuasive to overcome the rejections and objections previously applied. Rejections and objections not reiterated from previous office actions are hereby withdrawn. Specifically, the rejection under 35 U.S.C. 101 has been withdrawn in view of applicants' arguments showing that the claimed invention has a specific, substantial, and credible utility as a nucleic acid molecule encoding a catechol-O-methyltransferase.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
